Wireless video doorphone kit

Indoor unit

- Wireless and portable inside screen including adaptor station
- Frequency: 2,4Ghz
- Power supply: rechargeable battery 3,7V (1500mA) or powered by 5V DC 1000mA adaptor
- Charging time: < 2h
- Standby time: 6h - 150m range (unobstructed range)
- 24 melodies
- Volume adjustable (speaker and microphone)
- Brightness, contrast and color adjustable
- Place anywhere thanks to the docking base
- Including installation equipment
- Can record images and video from visitors

Outside unit

- 2-wire power supply 8~24V AC or DC
- Works on 2x 3,7V (2000mA) rechargeable battery
- Standby time with battery around 4-6 months
- Infrared camera with night vision up to 1 meter
- Offers the possibility to connect to a door with an automatic lock so that you can open the door or gate from the inside
- Splash-proof (IP44)
- With nameplate

The CEEZAM videophone kit combines style, convenience and advanced functionality for a complete door entry solution. With a wireless and portable indoor screen unit operating over a 2.4GHz frequency, this kit offers a range of up to 150 meters in an open space. The indoor screen features adjustable brightness, contrast and color, as well as 24 melodies and adjustable volume for a personalized experience. Recordings of visitors in image and video format are easily stored.

The outdoor unit, with splash-proof IP44 protection and an infrared camera for night vision up to 1 meter, ensures reliable use in all conditions. Connectable to an electric door opener for added convenience, and with a long standby time of up to 6 months on batteries, installation is flexible and easy to use. Including mounting kit, charging station and nameplate, this set provides everything you need for safe and stylish access to your home or business.
