

HAPAX D-PRO

VISIBLE FASTENING SYSTEM

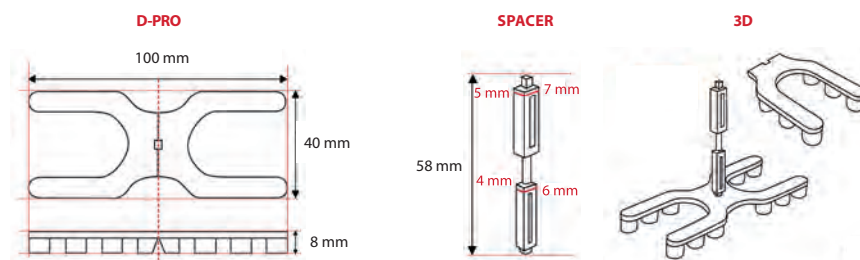

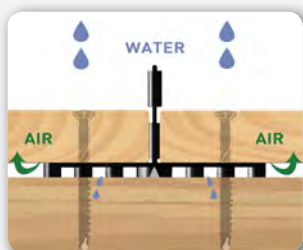

CHARACTERISTICS

- Eliminate thermal bridges.
- Alternative for bitumen strip.
- Removable shims.
- Material: recycled composit.
- Freeze resistant: -40°C.
- Heath resistant: 110°C.

ADVANTAGES

- UV resistant and resistant to extreme temperatures.
- Significantly reduces the risk of deformation of the boards and shearing of the screws.
- Creates excellent ventilation between the boards and joists to improve the stability of the wooden deck.
- Removes water traps between the wooden boards and the joists reduces the risk of rotting.
- Spacers integrated and removable. Allows regular spacing of 4, 5, 6 or 7 mm between the boards of your wooden deck.
- Improves the comfort of the deck thanks to its shock absorbing characteristics.
- 100 % recyclable.
